The Ottawa correspondents are getting acquainted with the Senate. An academic debate on the tariff, dragging its slow length along in the Green Chamber, leaves the newspaper men free to cross the hall, to the other side of the Parliament building where the rich, red carpets of velvet give and the big pictures in gold frames flourish resplendent.

The red carpets are red in the feet, the portraits of dead-and-gone Speakers are interesting and historical, and the Senators themselves are most entertaining. They are glad to see the newspaper men around. They directly give us a peek at a time without a correspondent dropping in to have a chat, but a great occasion, as the navy bill, comes along and the press stands by to recognize the Senate, Ferguson and Ferguson, in the midst of minutes. The Senators are proud and happy, to meet the newspaper men and tell them all they know. They are glad they are going to perform for the Senators and they say "watch our smile."

The newspaper men in their own words and happy, to meet the Senators. Not to lose an opportunity to look into the eyes of the Senators, but to be changed within the few hours and the new and youngest looking Senator from another, some of the most interesting correspondents have gone further than that. They have crossed-indexed the Senators according to race, creed, age, political color, private habits, and previous condition of servitude, so that they know as much about them now as they do about the members of the House of Commons. "Women are inclined to reserve themselves in business," says a woman of long experience in the world of business affairs. "Now why should a woman bring her own atmosphere?"

"I don't mean the atmosphere of self personality, individuality," she said. "I mean the atmosphere of a woman's world as much as a man's. Why wouldn't she set her own standards within reason—give free play to her femininity—within reason?"

She would be the local Council. The petition prepared by the W.C.C. in the city of St. Louis, which was brought up at last meeting, which was to be handed over to the committee on laws, and a copy forwarded to the United States for their consideration, and in due course to be presented to the Legislature, as it follows:

SAME IMPERIALISM VERSUS TORISIM

Sir George Ross is an Imperialist, who Imperialism is not open to anybody's questioning. His divergence, as leader of the Liberals in the Senate, on the question of Canada's duty in the matter of naval defense should be a timely and effective offset to the foolishly partisan attempts that have been made to instigate against the Liberal party and against Sir Wilfrid Laurier a wave of concern in Imperial affairs and a lack of willingness to assume Canada's proper share of the burden of defending British Empire in a sea. It may be that these untruthful and ungenerous insinuations would have carried little weight among Canadians and among those people in Great Britain who know something of the history of Canadian Liberalism and of the weapons which have sometimes been raised against it. But they were calculated to prejudice the Liberal party and the Liberal leader in the minds of newcomers to this country, and also in the minds of people in the Old Lands who mistakenly suppose the methods of the Nationalist-Conservative party in Canada to be the methods of the Unionist party in Great Britain. If Senator Ross' speech does something to dislodge the minds of newcomers to Canada and of certain "classes in Great Britain," of the notion that the Liberal party is open to any accusation of a want of zeal in Imperial affairs, the result will be good for Canada, for Canadian politics, and for the development of Imperial sentiment. It should also serve to make plain to those who have not observed the fact that the last man upon whose behalf such statements are to be launched is Premier Borden. It was Mr. Borden who four years ago denounced the principle of contributions, on the ground that Canadian money spent by a body outside the control of the Canadian Parliament would be a fruitful source of friction between the authorities and peoples of Great Britain and Canada, and would thus make for disunion rather than closer union. It was the same Mr. Borden who adopted the contribution scheme reluctantly no doubt—as the most that his Nationalist supporters would stand for, and in whose supposed interests some have endeavored to impute disloyal motives to those who now adhere to the position which Mr. Borden occupied four years ago.

But the Liberals in the Senate do not assume toward the contribution proposal any partisan attitude. The speech of their leader is not a party appeal nor a party denunciation, but a reasoned statement founded upon patent and unchallenged facts. No resolution he introduced did not call for the rejection of the naval aid bill, nor for its amendment in substance; it merely proposed that assent to the measure should be withheld until the people of Canada have been given an opportunity to declare what is their will concerning it. The position of the Liberal party is that they stand exactly where both they and Mr. Borden stood four years ago, and that they do not propose to allow the principle then agreed upon to be thrown overboard and a new and far-reaching alternative substituted for it without the consent of the country having had the opportunity to express their consent or dissent to the change. Their position is the essential claim of democracy that government is of the consent of the governed. It is not their fault that this position is in sharp contrast to that of the Government of the day—that a Min-

istry should be free to "put over" the people any sort of a scheme to which it can secure the consent of its followers in the House of Commons. It is, of course, annually that responsible government should have to depend for its continuance upon the loyalty to the public and public rights of the irresponsible branch of Parliament. But that is no fault of the Senators, but of the Ministers who have undertaken to railroad through hastily introduced measures in disregard of what the public think of it. Nor is it at any other occasion upon which the Senate in this country—like the House of Lords in Great Britain—has stood between a tyrannical or stage-struck ministry and the popular right to decide upon important departures in public policy. In their stand the Liberal Senators are in conformity with the best traditions alike of their own House and of those of the House of Lords, one of whose functions has been claimed and admitted to be to refuse assent to a highly important measure upon which the trend of public opinion had not been ascertained.

The course of the majority in the Senate cannot be challenged upon the ground that the measures in question is not an important departure. It proposes the expenditure of thirty-five million dollars of the money of public money in an entirely new enterprise. This expenditure would be made under the supervision of a body in no respect responsible to the Canadian people, or answerable to the Canadian people. The project involves the abandonment, for the time at least, of the national navy to which both parties in Parliament gave unanimous consent. It involves the disappointment of the expectations of the Australasian Dominions that Canada will join with them in the creation of a Pacific fleet capable of preserving British interests in the Western seas. It means the postponement to some indefinite time of beginning in the construction of a Canadian fleet capable of protecting our shores and trade routes in time of war. It means that for an unspecified time in Parliament will be debated the question of whether or not any part as Canadians in the preservation of Imperial interests or stability. It introduces, as Mr. Borden argued four years ago, an element of friction between the governments of Great Britain and the Dominion, and offers a standing source of misunderstanding. It means, as Mr. Foster argued four years ago, that there would be "no roots struck," either of the spirit or the practice of self-defense, in the soil of Canada. And, as Mr. Borden declared in introducing the bill to Parliament, it is logically defensible only upon such requirement of the management of Imperial and foreign affairs as Mr. Asquith has declared to be impracticable.

Neither is the Senate open to the charge of trying to impose the will of an irresponsible body upon the people. The Senators do not reject the bill, they do not say that a contribution shall not be made, of the amount named and upon the terms and conditions indicated. All they demand is that the people shall be asked whether they approve the substitution of this project for the naval policy which was adopted by the unanimous consent of Parliament. They do not say either by what means the popular will shall be determined. The Government is left free to either call a general election or to call for a plebiscite. The Senate simply demands that they do one or the other before the bill becomes law.

That the duty of insisting upon a reference to the people falls upon the Senate is a reflection of the position of the Liberal party to the cause they claim to have at heart. Had the Ministers been governed by an intelligent desire to promote concord and feeling between the people of Canada and those of Great Britain, rather than by a desire to compromise political differences to the end that the Liberal party might be able to effect to railroad through Parliament a measure of this character under the existing circumstances. There is no fault between the principle of democracy and same Imperialism. If there were, Imperialism would be an

impossible dream, because democracy has come to stay. But whatever or whoever associates Imperialism with tyranny, sets it up as the enemy of democracy and invites for it the antagonism of every man who believes in popular government. By gagging the House of Commons and by shutting out through, in disregard of public opinion, a measure declared to be of the essence of Imperialism, Mr. Borden has done more to destroy public sympathy with the cause he wishes to promote than he could have done by any other conceivable means. And by forcing the Senate to vindicate public rights against an attempted infraction undertaken in the name of Imperialism he has enhanced the effect of his high-handed treatment of the House of Commons. In substance, the attempt to force this measure through Parliament has been a declaration to the Canadian people that Imperialism is of the nature of outworn Toryism, that it rests not upon the consent of the people but upon the power of governments to ignore public opinion and to gag and bulldoze public representatives. The effect of such teaching in Canada—or any other part of the Empire—must be to check, not to help, the growth of Imperial thought and action. The British peoples of the world—just because they are British—cannot be driven along any prescribed course of action by any sort or species of tyranny. They can only be led by knowledge of mutual interest and mutual obligations. An attempt to drive them—just because they are British—must produce alike resentment toward the driver and disaster to his cause.

STEEL CORPORATION. AS RULERS, IS EXAMPLE

Judge Gary, Faced by Charge of Corruption, Retaliates by Pointing to Organized Efficiency.

New York, May 29.—"I believe the United States Steel Corporation has set an example in the business world. If this seems like boasting, I beg you to pardon me." These words epitomized the attitude of Judge Gary, chairman of the corporation in the hearings of the governments suit against it alleging combination. Judge Gary spent a second entire day on the stand devoted most of his testimony to pointing out the good which he says had been accomplished by the combination in the steel industry as the result of its organization.

HAVERFORD PULLED OFF ROCKS BY TUGS

American liner which went on Rock, was hauled off by tugboats. Passengers were taken off a short time after accident occurred.

Quebec, May 29.—The American liner steamer Haverford, which sailed yesterday from Liverpool, on a voyage to Halifax, was pulled off the rocks about 12 miles from the shore of the Gulf of St. Lawrence, and was taken off by tugboats. The vessel was damaged, and the passengers were taken off by tugboats. The vessel was damaged, and the passengers were taken off by tugboats.

Before dusk all the passengers with the light baggage had been safely landed at the harbor, and the company has arranged to forward them to their destination. When the passengers were taken off there was between 12 and 15 feet of water in the harbor at the time. The Haverford was pulled off the rocks by tugboats. The vessel was damaged, and the passengers were taken off by tugboats.

The captain and crew remained on the ship as a matter of course. The vessel was damaged, and the passengers were taken off by tugboats.

Intense heat has prevailed in Great Britain since Saturday, accompanied by a heavy fog, and there has been many minor shipping accidents. Regarding the grounding of the Haverford, G. P. Allen, of Cambridge, Massachusetts, said:

"We felt into the fog. It continued all night. The ship's siren was blowing continuously. When we arrived off Cape Cod the fog was very dense and the commander was no doubt anxious to pick the ship up. The ship was not moving slowly. It went on deck 1 foot a light air. The ship had been moving slowly. It must have been high tide as a few

hours later when the tide left, we could see rocks all around. There was a little excitement, but no panic except among a few foreigners.

The opinion of the ship's officers was that the vessel would soon be anchored and take the passengers off. We were all glad when we saw the tugboats and found ourselves in the company of the tugboats.

When the passengers were ordered to leave the boat one woman passenger refused to move unless her baggage was brought up from below.

The cabin passengers were mainly English. Arrangements have been made whereby the passengers may remain on the vessel until morning.

The dense fog has resulted in the delay of several liners. The steamer due at 10 o'clock this morning arrived at 2 p.m. She left at 6 p.m. Another due at midnight may attempt to land her passengers, but probably will proceed direct to Liverpool.

The steamer Haverford was pulled off the rocks by the government tug Hellebrand and three Clyde tug at midnight, and towed here. She is anchored outside the harbor.

STUDIOUSLY REFRAIN FROM GIVING OPINION

Three London Valiant Papers Refer to Rejection of Naval Bill, But do Not Express Opinion as to the Canadian Dispute.

London, May 30.—Tonight's papers have little to say about the rejection of the naval bill. The Evening Standard and the Globe, both London newspapers, are agreed that a constitutional crisis now exists in Canada, and the Pall Mall Gazette, also London, along with the Globe, declares that now the extra steps necessary cannot come from Canada it is up to Right Hon. Winston Churchill to provide them all.

The three papers studiously refrain from expressing an opinion as to the merits of the Canadian dispute, although the Evening Standard regrets that "a great imperial matter should have been dragged in the dust and sweat of party politics."

LO.O.P. GO TO CAMROSE. WIDESPREAD INTEREST IN ACTION BROUGHT BY FARMER AGAINST THE MERCHANTS' BANK AND OTHERS

Edwin Meserve Suing Four Parties for \$15,000 or Return of \$10,000 Which He Put Into Burn Grain Company at Sedge-wick Before Company Became Insolvent

A case which promises to have an important bearing on the relation of banks and customers and the respective rights of the members of a limited company is proceeding in the Supreme Court. The action is brought by Edwin Meserve, a farmer of Sedge-wick, against John Hurn, merchant, of Sedge-wick, the Burn Grain Company, and the Edmonton Trust Company, and he claims \$15,000 damages or the return of \$10,000 when he put into the Burn Grain Company, Limited, which is held by the Merchants' Bank, Ltd., and the Burn Grain Company, Ltd., \$10,000 to purchase shares in the company.

manager of the bank. O. M. Hagan, K.C., is counsel for the Merchants' Bank and is also watching the interest of the Burn Grain Company and the Edmonton Trust Company.

Alfred Constance, K.C., is counsel for the Burn Grain Company. The case has aroused a good deal of interest among lawyers, merchants and bankers. Plaintiff put \$10,000 into the Burn Grain Company in August, 1912, and it is alleged that he was induced to do so by representations as to the condition of the company made by the defendants Hurn and Clarke. The representations alleged are that the Burn Grain Company was a going concern, that it had a large and profitable business, and that it was a member of the Burn Grain Association, which was a powerful organization.

The representations alleged are that the Burn Grain Company was a going concern, that it had a large and profitable business, and that it was a member of the Burn Grain Association, which was a powerful organization.

Clark is alleged also to have represented to the plaintiff that the Burn Grain Company's account was one of the best carried by the bank.

Stock and Grain on Free List. The company subsequently became insolvent and the assets are in the hands of the Edmonton Trust Company. Meserve asks for an order preventing the trust company from disposing of any of the assets until a final disposition has been made of the case.

Mr. Hagan, in opening the case for the plaintiff, said that the Burn Grain Company never had much real capital. Hurn only had a loan of \$10,000 and was owner of the Burn Grain, but in 1909 he induced John and William James McKee to become partners in the company and to put \$25,000 into the business and the other cash he had for \$10,000.

The representations alleged are denied by the defendants Hurn and Clarke, while the Edmonton Trust Company claims to have no interest in the matter. Hurn maintains that the company was solvent and that the profits in the year previous to Meserve going into the business were as stated by the plaintiff. Both deny that they convinced Meserve to invest in the business. Hurn states that Meserve was induced to do so by the fact that he had ample opportunity of knowing what the status of the company was.

C. E. Hall has opened up a general grain business at 413 Nanyaway Avenue. He is carrying an up-to-date and comprehensive stock of goods.

PUT LIVE STOCK AND GRAIN ON FREE LIST

This Question is Now Agitating Committee Hearsaying the Undersecretary of the Interior, James H. Watson, is expected to announce that live stock and grain will be placed on the free list.

Washington, May 29.—Whether to put cattle, wheat and oats on the free list, or to put a duty on these articles is one of the absorbing questions of the state finance department just now in reviving the Undersecretary of the Interior, James H. Watson, chairman of the sub-committee investigating the agricultural end, and Representative Underwood, chairman of the ways and means committee, discussed the matter with President Wilson today.

The president is reported to have agreed with Senator Williams and Senator Simmons that the raw materials and their products in the agricultural line should be equalized in the bill instead of placing raw products on the dutiable list and making wheat and flour free as in the bill at present.

Stock and Grain on Free List. To equitize them was determined upon several weeks ago and the agricultural committee today decided to have decided to put cattle, sheep and hogs and wheat and oats on the free list. Where the president will agree to free listing of the raw materials or raw materials and their products is a matter which is still in doubt. The Undersecretary of the Interior, James H. Watson, is expected to announce that live stock and grain will be placed on the free list. They were generally in accord with the definite announcement by Senator Simmons after his conference with the president, that the five per cent. tariff discount on imports in American goods would be struck from the bill.

Representative Underwood and other house leaders, however, are not expected to make it right to have the clause reinserted when the bill reaches the conference.

Around the City

The mortal remains of Mrs. S.
Murray, 317 Sinclair street, will be
laid to rest at the Edmonton Cemetery
at ten o'clock this morning.

The rain of last evening was gladly
welcomed by the autoists of the city,
the prolonged spell of dry weather
having caused the city trails to be
covered by several inches of dust.

The funeral of Percy H. McCallum
will take place this afternoon at two
o'clock from his late residence, 847
Syndicate avenue, to the Edmonton
Cemetery. Andrews Bros. have charge
of the arrangements.

During the wind storm yesterday
the big tent of Barnes' circus was
blown down. Fortunately, there was
nobody in it at the time, otherwise
there might have been some loss of
life.

J. Lerock, the half breed who was
seriously injured yesterday afternoon
by being knocked down by a horse
and buggy at the intersection of Sec-
ond and Jasper, was reported to be
slightly better last night. He is at
the Misericordia hospital.

As the result of the forthcoming
departure of Inspector Worley for
Calgary, Edmonton will be once again
without a city magistrate. It is pos-
sible that some difficulty will be ex-
perienced in securing anybody to oc-
cupy the position, owing to the small
population of the city.

A mass meeting for men will be
held in the First Baptist church Sun-
day morning, May 31st, at 10 a.m. Mr. A. U. G. Bury,
M.A., of the firm of Dickie, Wilson
& Bury, will give an address upon
"The Religious Problems of Ireland."

Mr. Bury has been for a number of
years prominently identified with the
religious and educational work in Ire-
land and brings to the discussion of
the subject the first-hand knowledge
of an authority. Special music is ar-
ranged for. All men will be wel-
comed at this meeting.

PRESENTATION TO MR. MAY.

A. E. May, the respected retiring
postmaster of Edmonton, was the re-
cipient yesterday afternoon of an-
other signal token of the esteem in
which he is held, when, on behalf of
over fifty letter carriers connected
with the Edmonton office, he was
presented with a silver tea service by
A. D. Campbell, president of the
local branch of the Federated Associa-
tion of Letter Carriers. Mr. May, to
whom the presentation was a pleasing
and unexpected surprise, made an ap-
propriate response.

Alberta Crops Making Splendid Growth—Nearly an Inch Per Day

BUMPER CROPS FOR 1913 ARE ASSURED IN ALBERTA

True to Her Name—Province Is Enjoying Shift of Pricious Sunshine

FARMERS RADIANT AT CROP PROSPECTS

Cold Spring Which Threatened Agricultural Crisis Is Safely Passed

Good crops for the season 1913 are assured. Alberta and the West have just passed safely through what promised at one time to be a crisis in the agricultural and economic advancement. The spring of 1913 has been the lowest and coldest in Alberta's history since she became a part of the world's wheat. A fortnight ago the weather was decidedly bad. The crops had made merely fair progress, and the farmers were anxious to see the weather improve. The weather has now improved, and the crops are making splendid growth. PEACE TREATY SIGNED BY THE BELLIGERENTS

Balkan Allies and Turkey Sign Preliminary Treaty of Peace in London
BULGARIAN DELEGATE CONGRATULATES SIR EDW. GREES
Greeks Resent Friendship Growing Up Between Bulgaria and Turkey

London, May 29.—The preliminary treaty of peace was signed at St. James' Palace by the delegates of all the Balkan allies and of Turkey. Sir Edward Grey, the British foreign secretary, presided at the ceremony.

Dr. Danef, the Bulgarian peace delegate, in the course of an interview after the signing of the preliminary treaty of peace, said: "I am relieved. It means not only blood and treasure, but also the peace of the world. It is the most important of the age."

"We owe a deep debt of gratitude to Sir Edward Grey, whose endeavors in treating the Greek has brought about peace much sooner than some of us had expected."

The signing of the peace conference has well passed for Monday, June 10.

London, May 29.—Greece, it is learned, will persist in her demand for the cession to her of such Macedonian territories, even if occupied by Bulgarians, as are Greek by nationality and tradition. Greece is prepared to yield on minor points to Bulgaria, but the unilateral basis of her policy will be a demand for all territories, the possession of which is purely Hellenic. The Greeks view with bitter disappointment and resentment the friendships growing up between Bulgaria and Turkey and speak of the Bulgarians as having "turned against their brothers."

The Turco-Bulgarian entente is regarded as nothing but an attempt to isolate and throw off Greece. Greeks assert that the victories of the war were due to their naval operations and that they alone should gain for their special consideration.

Greece's feeling as regards Macedonia and the Aegean Islands is strong and will cause the Greeks to resort to strong measures.

Bulgarians Open Fire on Greeks.
London, May 29.—Bulgarian artillery at Prava opened fire on the Greek positions in the direction of 12 Euthera's night, according to the Exchange Telegraph Company's representative in Athens. The Bulgarian commander refused to enter into negotiations with the Greek commander for the purpose of stopping the firing. Details of the engagement have not yet been received. Owing to the narrowness by the Bulgarian portion of the Greek fleet has been sent to 12 Euthera.

Is Woodroffe To be Made the Goat

Resignation of Superintendent of Street Railway is Expected Soon

According to information gleaned at the city hall yesterday, the resignation of Sup. Woodroffe of the street railway department, may be forthcoming very soon. The city council has decided to put the resignation of the superintendent on the shoulders of the commissioners. The commissioners cannot blame the council, at least not openly. The superintendent is the only one left. If the superintendent is not the kind of man to protect the council or commissioners against over-exaggerated, even when the council orders it, then we must get a new man, said Mayor Short yesterday, and his statement is taken as confirmation of the recent attitude of the mayor and of the two of the commissioners, as well as several of the aldermen, toward the present street railway superintendent.

Commissioners and experts and engineers have stated repeatedly that Superintendent Woodroffe is a capable man, imbued with the sole idea of making good in his department.

WILL NOT TRY TO REVIVE THE NAVAL BILL

Bill is Considered Dead and Will Not Go Back to Lower House

AUTUMN SESSION HAS BEEN DECIDED UPON

Appeal to Country May Be in November After Redistribution is Passed

Ottawa, May 29.—The rejection by the senate of the naval bill did not create much stir in the capital this morning, as it was a foregone conclusion that the action of the upper house would be. Before the common next evening, however, it was said that he did not care to make any statement of the cabinet to any statement it will, in all probability, be in the house of commons. As the bill is dead and will not go back to the lower house it is possible that nothing more will be said about it in the house of parliament this session.

It is altogether possible that the situation will be considered by Premier Borden and his ministers at a meeting of the cabinet to be held soon. An autumn session has been decided upon. At this session the chief business will be the passing of a redistribution bill after which there will be an appeal to the country in November or earlier. This will give an opportunity to spend the money the government so lavishly voted in the estimates.

AROUND THE CITY

The Canadian Pacific 88, Lake Ma-
nitoia closed at Quebec Thursday.
Passenger passengers were arriving in Win-
nipeg, second class, regular train, on
Sunday night; third class, special
train, Sunday night.

That Superintendent Turner, of the
waterworks department, is to be
given full charge of all branches of
work in his department was the an-
nouncement made by Mayor Short
last night. In the past, the water-
works department has had charge of all
the work.

PURSE SNATCHING.

On the charge of snatching a purse
from Mike Antonik, in the C.N.R.
station shortly after eight Thursday
evening, Constable Charles will be charged
at the Police court on Saturday.
Antonik, in describing the affair, al-
leges that Frank snatched his purse
while he was a live for the baggage van,
falling in his attempt to board the
train and falling into the arms of the
aide of the police.

CHANGE IN C. P. R. TIME.

Commencing on Sunday evening
next the C. P. R.'s midnight Calgary
train will leave the city at 11:45 a.m.
instead of 12:40 a.m., as at present.
The change in time will be made in
order that Edmonton has been made its
train to run between Calgary and the coast
this summer. The train from this
city will arrive in Calgary at 7 a.m.
and will connect with the new train
which leaves the southern city at 7:50
a.m. The time of arrival in Calgary
under the present schedule is 7:55
a.m. The new Calgary-Vancouver
train will arrive in hand at 10:45 a.m.
The new train is expected to serve
the Banff district from this city much
more effectively than the present ser-
vice.

TWO FIRE CALLS.

At a few minutes to five o'clock
yesterday morning a stable in the
rear of 433 Gallagher street, caught fire,
due to children playing with mat-
tress. Companies 2 and 3 responded,
and the flames were immediately ex-
tinguished. No damage was done.
The brigade also had a call to the
corner of Columbia avenue and Sev-
enth street shortly before nine o'clock
last evening. A wood pile belonging
to R. D. Hill became ignited through
some unknown cause. The blaze was
extinguished by water, no damage being
done.

Found Bodies of Aeroplane.

Zoppo, Germany, May 30.—A party
of fishermen today found the bodies
of a German and a Canadian, who were
killed in the crash of a biplane, which
fell into the sea, through the clouds,
when Zoppo and Adersheim, when
a wing of their machine broke at
a height of 150 feet and they fell
into the sea and drowned.

West Edmonton

ROAD FOREMAN'S NEW OFFICE.

A new office is being erected at
West Edmonton, for J. H. Moorey,
general road foreman of C.T.P. en-
gineers, who will move out here
shortly.

"A FEW FACTS ABOUT ISOLATION"

Will be the subject of a lecture to be
given by Dr. E. H. Jones on Sunday, June 1st,
at 4 p.m., in the Methodist Church,
West Edmonton. All interested are
invited to attend.

MERCHANTS BANK SECURE SITE.

It is reported on what ought to be
good authority that the Merchants
Bank has secured a building site for
West Edmonton branch on a desirable
corner, at the corner of Paul avenue
and 21st street.

ST. EDMUND'S CHURCH.

The new addition is nearly com-
pleted for St. Edmund's Roman
Catholic Church. Services are con-
ducted on Sunday by Rev. Father
Gibson, R.C.J. Mass at 9:30 and
10:30 a.m., and vespers at 7 p.m.

TO BUILD SEPARATE SCHOOL.

The Separate school board is in con-
sultation of about 80 pupils, instructed
in the city schools. It is proposed to
build in the east part of the city a new
four-roomed Separate School, to be
ready for occupancy after the summer
vacation.

BIBBENS BUSY BUILDING.

About twenty new homes are under
construction in the subdivisions north
of the G.T.P. yards.
Mr. Campbell is expecting a delivery
in the G.T.P. yards.
Among the builders on Paul avenue
are J. Lamson and J. Davidson.

G.T.P. FIRE BRIGADE.

The Grand Trunk Pacific fire brigade
at West Edmonton is a deep
strong. The city water is brought
out, but by means of G.T.P. pumps,
and the pressure can be raised to a
fire fighting pressure of 250 to 300
pounds.

The G.T.P. brigade has already

done valuable service in saving the
G.T.P. lumber yard and at another
place preventing the destruction of
\$750 worth of oil and gasoline.
The Grand Trunk, in Ontario, and
the Grand Trunk Pacific in Western
Canada, both use a standard fire

alarm signal—six short blasts, fol-
lowed by one long blast. This signal
from any whistle in the yard quickly
calls out the brigade. The brigade
is started and the fire is fought.
The shortage of men, however,
would prevent the brigade from be-
ing of much use to the business and
residential communities north of the
G.T.P. yards.

STOLEN MAIL BAG FOUND.

About a month ago thieves enlarg-
ed the West Edmonton post office
front end off with the mail bag, In-
vestigative Bailey, R.N.W.M.P., visited
the place just before he went to Toronto,
where he met his death. Other de-
tectives have taken up the case
which the burglar left behind, in-
cluding the finger prints, but no ac-
cusee have been made.

However, the mail bag was not con-
tained this week by G. O. Johnson and J.
Anderson. They just happened to
find it while taking a short cut
through the bushes when going home
from work.

For a month the mail bag had been
lying in the bushes. It had been
found. Some of the letters had been
opened, but after a careful examina-
tion it is concluded that nothing was
stolen. The thieves did not get the
mail-bag which they wanted. The
mailing would have been sent to contain
something of value, as it was just
after day when the mail was usually
casually sent money away. But it
was the incoming bag that was stolen,
and as it contained no money it was
useless to the thieves.

IMPORTANT RAILWAY CENTER.

At the Grand Trunk Pacific sta-
tion at West Edmonton there are now
located the following officials: W. W.
Lester, locomotive foreman; W. B.
Kerwood, car foreman; J. H. Moorey,
general road foreman of engines; two
assistant road foremen, one between
Edmonton and Watrous and one be-
tween Edmonton and the end of steel.
J. Robertson, general storekeeper for
the line, and mounted on the train
from Watrous west to end of steel; C.
Thompson, general yard master;
Mr. Trip, night yard master; Gar-
right, foreman of bridge and building
departments. Besides the heads of
these departments, a large number of
employees are located at West Ed-
monton.

Two hundred and fifty men are
employed in the motive power, and
car departments. About 20 men are
employed in the stores department. The
road foreman or officers of the
G.T.P. and the department have a staff
of carpenters at West Edmonton and
several transient gangs long at vari-
ous points on the system. A dozen
men crewer other men, including
engineers and trainmen—on in and
out of West Edmonton.

The G.T.P. business is just be-
ginning to develop, but development
and progress will come in the near
future. The G.T.P. became a transcon-
tinental and a host of trains going to
run from coast to coast. When the
Imperial Express and the Overseas
Express and the ocean to ocean
freight begin to run there will be a
great development in G.T.P. traffic
and progress will come in the near
future. The G.T.P. has a large staff
of employees and officials
located at West Edmonton terminals.
